

Felix's Fantastical Finds

April 3, 2023

As the players enter Felix's Fantastical Finds, they are greeted by the sight of countless magical items lining the shelves and tables. The shop is well-organized, with each section dedicated to a specific category of item. A friendly-looking man with a white beard and sparkling blue eyes stands behind the counter, his name is Felix.

Felix is a wizard of considerable power, and he takes great pleasure in sharing his knowledge of magic with others. He wears a purple robe adorned with gold symbols, and a matching pointed hat sits atop his head. His shop is known throughout the land for its unique and rare magical items, many of which Felix has created himself.

"Welcome to my magic shop! Today, I am proud to introduce a new collection of enchanted items, crafted in honor of [Porphyria Awareness Week](#). These items were created with the specific needs of those who live with Porphyria in mind, while also offering unique benefits to adventurers of all kinds.

Porphyria is a rare genetic condition that affects the way the body produces heme, a component of hemoglobin. This can lead to a build-up of porphyrins, which can cause a range of symptoms such as abdominal pain, skin sensitivity to light, and neurological problems. As a magic shop owner, I have seen the challenges that individuals with Porphyria face, and I am proud

to offer enchanted items that can help manage some of these experiences. It is my hope that by raising awareness and understanding of Porphyria, we can better support those who live with it."

Celestial Choker

Wondrous item, uncommon (requires attunement) This choker is made of pure starlight and has a small flickering gemstone at its center. This choker has 4 charges. While wearing it, you can expend 1 charge as an action to grant resistance ... [Continue reading](#) →

Elixir of the Moon's Blessing

Potion, rare This elixir has a shimmering violet hue and a subtle metallic taste. When consumed, it grants the drinker temporary immunity to all forms of poison and removes the poisoned condition for 1 hour. However, it also causes the ... [Continue reading →](#)
