Let's do this!

We're giving away a free deck of character cards and an accompanying PDF packed with more details about the characters. And for every 100 upvotes we get on the Reddit post, we'll give away an additional PDF version, and for every 500 upvotes, an additional physical deck + PDF.

Interested? Here's how it works:

Upvote and leave a comment (not a reply) on the Reddit post with the most creative NPC concept you've created or seen

The winner(s) will get a deck shipped to them via DriveThruCards (worldwide—anywhere they ship). PDFs will be sent via DriveThruCards/DriveThruRPG.

I will randomly draw winners on Tuesday, May 2 at 10 a.m. Central time.
