This adventure is one piece of a movement within the D&D

community to invite, encourage, and include those who have not been, both in the RPG community and nearly everywhere in real life. Wyrnworks Publishing is dedicated to using RPGs to help you make lives better, to provide tools, training, and a community to this end. We believe that this will extend far beyond the ever-growing RPG community as more and more people learn, grow, and give and receive acceptance.

To that end, this adventure includes disabled NPCs just like in real life, [including a human woman going through menopause with hypertension \(high blood pressure\)](#).

This free adventure is formatted for the blind and visually impaired.

Content Trigger Warnings

This adventure includes death, violence, ableism, and the undead.

Disabled NPC of the Week

At Wyrmmworks Publishing (wyrmmworkspublishing.com), we believe that the more people have chances to interact with disabled people, the more normal it will become in their lives, the more comfortable they will be around disabled people, and the more inclusive our world will become. To this end, we release a free disabled character to use in your game every week to help your players grow accustomed to disabled people in an RPG setting, allowing them to get used to interacting with disabled people.

Accessible Adventure of the Week: The Price of Success

October 4, 2021

My Students Are My Treasures

A rural school is haunted by two banshees: former teachers who cared more about how their students made them look than the well being of the students themselves. Can you free the countryside from this threat?

This side adventure is designed for four to six characters with an average party level of 3, totaling roughly 16 levels.

“Our lives serve as either a warning or an example to others.” – Tony Robbins

This week’s adventure, designed as Halloween approaches, explores abuse and trauma. Being a horror adventure, it plays out the effects of trauma and the concealment of trauma on a community in a visceral and memorable way. It serves as a

warning—not only about the need for open communication with the people in our lives who may be experiencing trauma, but also our willingness to be available to them for help. I hope your players will experience this adventure with empathy and a resulting drive to be open to potential victims looking to them for help.

Content Trigger Warning

This adventure includes death, violence, the undead, death of family, children in peril, psychological abuse of children, parents who disbelieve reports of abuse, and undead children. Because it explores realistic expressions of trauma, the Dungeon Master (DM) should discuss this adventure with players before deciding to use it. Success could be cathartic for some but tear open traumatic wounds for others.

To talk to your players about this adventure's sensitive content without spoiling the plot, you can ask them how they feel about a horror adventure involving child abuse, death, and zombies in various combinations. **If any players are even slightly uncomfortable with the topic, skip this adventure.**

Disabled NPC of the Week: Lolbimirt

October 4, 2021

Lolbimirt is a forest gnome guard with abnormal growth and a rash on 40% of his body.

Is this character actually disabled?

While “taller than usual” and a skin rash don’t seem like disabilities, and by most official definitions, they’re not, this character emphasizes that disabilities are not binary – they’re a spectrum. Most people have multiple physical and/or mental challenges, and there’s no hard and fast line that separates people with or without disabilities. We’re more alike than you think. At the same time, Lolbimirt has difficulty navigating the burrows of his gnomish family, and his rash leaves him in danger of infection, an important condition in a world without antibiotics or, in the real world, to those without proper access to medicine or medical insurance.
