Disabled D&D5e Heroes Coloring Book

October 4, 2023

Tabletop Roleplaying Games like Dungeons & Dragons are great equalizers: people of all ages and abilities can play together, cooperatively. What else can do that? Coloring books! So we used the amazing art from Limitless Heroics to create a coloring book for all ages!

48 images include fantasy characters, assistive devices, and service animals.

How does a coloring book make lives better?

- People like me with ADHD may benefit from coloring to help keep focused during games and other times, and D&D-related coloring books are rare.
- Put this in a child's hands, and you instantly normalize disabled heroes in their lives.
- D&D is for everyone, and so is artistic expression!
- The pages include quotes from disabled, neurodiverse, and mentally & chronically ill people to teach about their experiences and accessibility.
- ☞Service Owlbears☞ are adorable.

The book also includes a local site license for copying, so

schools, clinics, local game groups, and FLGSs can print or copy coloring pages for their local events, clients, and fellow players.

Catch Dale on the Gaming and Mental Health Panel

October 4, 2023

I'm deeply honored to have been invited to the [Everyone Games Gaming and Mental Health Panel](#) this Saturday, October 1st 2022, 10:00AM – 11:00AM EDT on [Twitch](#).

Taking care of our mental health is so important today especially with everything we have going on in the world right now, but how can gaming be a part of that mental health journey? We'll be exploring questions like that and more during this panel. Join us as we discuss how gaming is a gateway to many skills including problem solving, practicing empathy, connecting with others, and so much more. It can be an escape and an outlet, but it can also be a useful tool in allowing others to work through their personal struggles and trauma.

Fans of Wyrnworks Publishing will also note that [Naomi Hazlett](#), copy editor and sensitivity reader for [Limitless Heroics](#) (and will be involved in upcoming projects) is also on that panel.

I'd love to have you all there!

The Kickstarter is done. Sort of. Now what?

October 4, 2023

Hi, wonderful patrons! I know I've been quiet lately here on Patreon, and before that, I've been talking a lot about the *Limitless Heroics* Kickstarter, and now that it's done, what's next?

Of course, first of all, it's far from done! If you've been watching the conversations in the Discord (Feel free to jump into the conversations!), everyone is busy creating characters,

making artwork, writing additional pieces – over 200 magic items and so much more! We set July as the target date and are on track for that, and here's a Patreon-exclusive teaser draft just for you that I just finished based on a backer submission! (Note: it hasn't gone through our extensive editorial process yet, so expect it to change.)

GleamForth Wayfinder

Wondrous Item, Legendary

Follow the Gleam, and find your way. Hold me leftward lest you stumble. Let the third eye guide your path. Look to your heart to find your Truths. Center me, and I will bring you home though the darkness envelop you.

This labyrinthine eye provides protection and direction to those who would be lost without it. Unlike most prosthetic eyes, you hold this one instead of inserting it. When held in the left hand, it provides 5' blindsight. When so held, you cannot use that hand for any other purpose. As an action, you can hold it mid-forehead and cast the *find the path* spell once per day. Once per day, as your action, you touch the heart of a creature you can reach that is charmed, frightened, or possessed by a celestial, an elemental, a fey, a fiend, or an undead. The creature you touch is no longer charmed, frightened, or possessed by such creatures. When held at the solar plexus, once every seven days, you can cast either *plane shift* or *teleportation circle* to your home. Your home need not have a teleportation circle inscribed, but when you acquire this eye, you must declare your home location as the destination of this function.

Pre-Orders Open

If anyone missed the Kickstarter (or knows someone who did – feel free to pass on this link), you can [get the pre-order here](#), and use the coupon code **LHPATREON** to get \$2 off! (Yes, you can share this coupon code along with the link!)

But *then what?*

We have a long to-do list that keeps getting longer, but picture this: imagine the **city version of *Limitless Heroics***: a campaign city that explores concepts of accessibility where characters can have all the typical urban adventures while encountering what accessibility in its various forms would look like in a high fantasy setting! I've already received interested notes

from accessibility advocates and universal design firms interested in helping with this and several writers and artists eager to work on future Wyrmmworks Publishing projects, and if it's well received, we can keep adding pieces to create a campaign world with different locations that explore and teach about all kinds of issues, all while having grand 5e adventures! Add in some miniatures based on some of the 50+ characters being designed for *Limitless Heroics*, and you have something truly unique that helps you improve others' lives!

Tied to that big project, I have a collaborative project in the works that I can't discuss yet, but it's a partnership with at least one well known figure in the D&D space whose name is attached to some official D&D adventures. That one is just in the idea stage right now (We're both pretty busy at the moment but hoping to get started on it later this year), but when I can say more, you'll be the first to know! (OK, besides my wife. She hears these things first.)

And, I have some great guests lined up for future Gaining Advantage episodes, so expect more of those soon!

Thanks so much for your support! You're helping make all this happen!

All the best!

Dale

Limitless Heroics for 5e (Disability, Neurodiversity, Mental illness Mechanics for DnD)

October 4, 2023

When you play a tabletop role-playing game like 5e, you want to be the hero. The world is different for you having been there, better. **What if you could make the real world better by playing an RPG?!** That's what Limitless Heroics is all about. Limitless Heroics is the **most comprehensive disability compendium ever created for a Tabletop Role-Playing Game. For Fifth Edition, it provides:**

- **640 Pages of content!**
- **450+ Traits:** Game mechanics for nearly every condition or trait in existence (plus some fantasy traits, because that's what you should expect in a world with magic) with 4 Impact Extents, and 6 Frequencies. With 1–6 traits per character (or more), that's **64,800+ combinations with the option to add more.** (Free Sample Trait: [Blindness](#))
- **78 Random tables** to choose or generate the traits, their Impact Extent, and their frequency ([Get a free ashcan sample with all the tables from the book.](#))
- **200+ New Magic Items and an online random generator**

for thousands more! Nearly every trait includes mundane and magic assistive options. ([Free Sample Assistive Magic Item: Braces of Blades](#))

- **4 New Monster Stat Blocks** because sometimes, the disability or assistive device is a creature.
- **6 New Spells** because sometimes, assistance comes from a spellbook
- **Service animals** designed as classes (similar to sidekicks)
- **50 Example NPCs**, fully illustrated, ready to use
- **A [one-shot adventure](#)**
- **Thousands of real world examples** so players can learn more and better represent the traits
- **Tutorials:** Opening articles discuss how and why to implement these options, how to discuss it with your players, and common tropes to avoid. **You have all the tools here to run an inclusive campaign.**

Our website will have a [free random generator](#) to simplify determining character traits, but you'll need the book for the descriptions and mechanics, or you can use the included tables to choose or roll manually.

We talked to dozens of people with diverse conditions to make sure our game mechanics represented their experiences before writing it, and over 900 people looked at the manuscript draft, and we got 90 pages of feedback from their experiences!

All writers, editors, and artists hired for this book are disabled, neurodivergent, and/or have mental or chronic illness.

Book Accessibility

- Dyslexia-friendly layout
- PDF, txt/csv, and ePub versions
- Fully screen reader accessible
- Indexed audio version included with every purchase

Real World Benefits

We believe that this resource will help you normalize disabilities in your life and the lives of other players. Non-disabled people can sometimes feel uncomfortable around disabled people or don't know how to talk or act. This resource allows you to practice in an imaginary world to equip you with empathy and skills to feel increasingly comfortable doing that in the real world. And those with disabilities now have a way to represent their experience in-game to feel empowered and to help others see them more clearly. Imagine what we could communicate to the world when all those actual play Twitch streams include disabled characters!

This is a movement.

Limitless Heroics is more than an RPG book. It's a petition. By supporting this project, you communicate to every game publisher on earth that disabled people exist and can easily be included in their games, that the customers want that representation, and that accessibility and representation are necessary core

features for future products. Imagine companies and organizations seeing the success of this movement beyond the RPG community and how that would affect their decisions in the future. Imagine how you as RPG players who work in every industry can work for change to overcome ableism because of what you and your players learned while rolling dice at the RPG table. Imagining is what we do best, but we can use fantasy to change reality. Maybe RPGs have some real world magic after all. Support this project with the 2,287 backers and others who ordered it since, and mark this day on your calendar and social media as the day you helped change the world.

About the Players Edition

The Players Edition of Limitless Heroics includes everything in the full book except the adventure, magic items, and NPCs, reducing the size and associated costs by 346 pages. If you plan to use these resources in settings where you need multiple copies (e.g. schools, clinics, community organizations, etc.), this will save you some money.

We met these stretch goals, all of which are included.

\$25,000: Complications & Prostheses

Once we hit the \$25,000 goal, we added additional complications and magical prosthetics. Some experiences are not traits of various conditions, but complications that result from them, such as infections, concussions, secondary depression, and intoxication. Once we hit this goal, we added 20 complications to the book and 20 Magical Prostheses.

\$30,000: 10 NPCs

Similar to our previously published [Disabled NPC of the Week](#) but with more details, our character team added 10 NPCs (Non-Player Characters) with full backgrounds, personality details, disabilities, and artwork to the book. These are in addition to the characters created for the **Create a Character** and **DELUXE Create a Character** rewards and add-ons, which will be included automatically.

\$40,000: One-Shot Adventure: Horror of the Shade by Theo Kogod

When a caravan makes camp in the shadow of crumbling ruins, they awaken an ancient revenant and are transported to a dark eldritch dimension. To escape back to the physical world, they will need to fight their way past the undead shade or risk being trapped forever.

\$50,000: Service Animals

We included a chapter to implement service animals into your game, both real world and fantasy animals, including rules for training and how to use them. This section is written by Brittney Hay with service animal trainer and user consultation.

Content Warning

This book contains descriptions and game mechanics for nearly every physical, mental, and emotional condition in existence and a few that don't exist, including physical, mental, and

emotional trauma and all manner of illnesses, including an entry on phobias and mention or illustrations of possible phobic triggers. If it can happen to your mind and/or body, it's probably here. For those who would have difficulty with any of that, please be aware of that likelihood. Use the table of contents to avoid difficult sections, or give this book to a trusted friend, and let them comb through it for the details you need to build your character while skipping past the traumatic entries.

Artists

We intentionally assembled an eclectic team of artists to reflect the diversity of experiences and expressions of these conditions:

[Kalman Andrasofszky](#) ([Insta](#)) is a freelance illustrator, comic book artist, writer, and educator in Toronto, a longtime member of the R.A.I.D. Studio, and newly diagnosed with ADHD. In 20+ years as a creative professional, Kalman has worked with many clients such as Marvel Entertainment, DC Comics, Wizards of the Coast, Shaftesbury Films, UNESCO, Portfolio Entertainment, and TekSavvy, among others, creating content for such brands as X-Men, Avengers, Batman, Star Wars, Dungeons & Dragons, Murdoch Mysteries, and PG: Psycho Goreman. Kalman reinvigorated the classic Canadian superhero property Captain Canuck by both rebooting and adding many new concepts and characters to significantly expand the scope of the brand into a dynamic sci-fi shared universe. When not writing and drawing too many things at once, Kalman can be found retro-gaming on his vintage SEGA Genesis system.
