

# Hieronymous Ziegfield III's Frost Gum

November 18, 2022

Wondrous Item, common

When a user chews this gum, it numbs the mouth, eliminating tooth and mouth pain, but the numbness makes talking difficult, causing disadvantage on social Charisma checks, and spells with a verbal component require a successful DC 8 Dexterity check to cast successfully. The effect wears off 1d4 minutes after removal from the mouth.
