

Sabele's Soothing Blanket

November 18, 2022

Wondrous Item, common

This small blanket is embroidered with oddly soothing patterns. If a living creature lies beneath the blanket, the blanket magically extends to cover their entire body and also increases to 15% of the creature's body weight. The blanket also emits a fragrance the creature finds soothing. This blanket has 1 charge. While taking a short rest under it, you can expend the charge as an action to activate it, and at the end of the rest, you receive a +2 on all saving throws related to your associated trait. If you take a long rest under the weighted blanket, then you wake up with [Stiffness](#) (Roll for Impact Extent) from the added weight during your sleep for 1d4 hours. The blanket regains its expended charge daily at dawn.
